

Dansk Kirurgisk
Selskab

Årsmødet 2025

d. 13. november - 14. november 2025

Torsdag
d. 13. november

08.00 - 08.30 Registrering, udstilling og morgenforplejning

Plenum

08.30 - 08.45 Åbning af årsmødet og Lippmann prisen

08.45 - 09.30 Lippmann foredrag - Fra hernieforskning til forskerskole – en rejse gennem 1000 artikler og talentudvikling

Plenum

(300)

Akutkirurgi, faglig session (09.30 - 10.30)

Sessionsledere
Emma Possfelt-Møller
Jakob Burcharth

09.30 - 10.00
Akut tarmiskæmi og abdominal angina

Matti Tolonen, Consultant Emergency Surgeon,
Helsinki University Hospital

10.15 - 10.30
Mikkel Taudorf (Int. Radiolog, Rigshospitalet),
Interventionsradiologi

10.15 - 10.30
Diskussion

Lille Sal

(200)

Colorectal faglig session (09.30 - 10.30)

Sessionsledere
Susanne Haas
Anne Vestbjerg Thyø

Pilonidalsygdom – nu en del af det
kolorektale fagområde!

9.30 - 10.30
Invited Speaker Steven Brown

Mødelokale 2

(100)

ECV faglig session (09.30 - 10.30)

Sessionsledere
Michael Achiam
Frederik Helgstrand

Det komplekse perforerede ulcer

09.30 - 09.40
Evidensgennemgang
Inaz Faisal, Hvidovre

09.40 - 9.45
Kasuistik
Michael Hareskov Larsen, OUH

09.45 - 09.55
Evidensgennemgang om tørlægning
Cecilie Husballe, Køge

09.55 - 10.10
Diskussion

Mødelokale 1

(50)

Plenum

(300)

Lille Sal

(200)

Mødelokale 2

(100)

Mødelokale 1

(50)

ECV faglig session (09.30 - 10.30)

(fortsat)

Postoperativ fistel til luftvejene

10.10 - 10.20

Kasuistik

Michael Achiam & Mette Siemsen,
Rigshospitalet

10.20 - 10.30

Diskussion

10.30 - 11.00

Pause – Udstilling og mød industrien med Hans-Christian Pommergaard, Rigshospitalet.

Plenum

(300)

Akutkirurgi, frie foredrag (11.00 - 12.00)

Sessionsledere
Thomas Korgaard Jensen
Anders Peter Skovsen

11.00 - 11.12

Socioeconomic position affects health care utilization and mortality following emergency laparotomy

11.12 - 11.24

Preoperative Inflammation, Measured by CRP/ Albumin Ratio, is Associated with an Increased Risk of Postoperative Complications Following Major Abdominal Emergency Surgery

11.24 - 11.36

Diskrepans mellem Akut Kirurgi Databasen og lokale kvalitetsdatabaser

11.36 - 11.48

Incidence and Risk Factors of Postoperative Pulmonary Complications After Major Emergency Abdominal Surgery: An Observational Study

11.48 - 12.00

Self-Harming Patients: Behavior in hospitalization over time

Lille Sal

(200)

Colorectal frie foredrag (11.00 - 12.00)

Sessionsledere
Erik Frostberg
Andreas Hurup Nordholm

11.00 - 11.10

Navigating work life after colorectal cancer: Insights into work functioning - a Danish follow-up study.

Therese Juul, Aarhus University Hospital, Department of Surgery, Aarhus, Denmark

11.12 - 11.22

Genital Bar Electrode Insertion for Dorsal Genital Nerve Stimulation - Feasibility and Safety of a Novel Approach for Managing Faecal Incontinence and Overactive Bladder

Louise Schmidt Grau, Aarhus University Hospital, Surgery, Pelvic Floor Unit, Aarhus, Denmark

11.24 - 11.34

Exploring colorectal neoplasia pathogenesis in normal appearing colonic mucosa: the eicosanoid pathways

Victoria Berner-Hildorf, Bispebjerg Hospital, Digestive Disease Center, København, Denmark

Mødelokale 2

(100)

ECV, frie fordrag (11.00 - 12.00)

Sessionsledere
Maria Saur Svane
Nikolaj Nerup

11.00 - 11.12

Prognostic value of sarcopenia and low hand grip strength on postoperative complications following esophagectomy

11.12 - 11.24

Textbook Outcome after gastric cancer surgery is associated with improved survival: an observational study from a high-volume center

11.24 - 11.36

Stage-dependent survival in Gastric Cancer: A Danish nationwide cohort study

11.36 - 11.48

Effects of the gut hormone ghrelin on glucose tolerance, insulin sensitivity and beta-cell function after sleeve gastrectomy

11.48 - 12.00

Lymph Node Yield and Its Impact on Survival Outcomes: A Retrospective Multicenter Cohort Study from Denmark

Mødelokale 1

(50)

Flash Talks (16 stk) - (11.00 - 12.00)

Sessionsledere
Amanda Brunchmann
Lasse Bugge

Traumatic diaphragmatic injuries in blunt and penetrating trauma in a European Trauma Centre.
- Sarah Andresen

Preoperative NT-proBNP as a Predictor of Risk in AHA Surgery
- Claus Anders Bertelsen

Enhancing Surgical Laparoscopic Skills via Postoperative Video Review
- Charlotte Egeland

Intraoperative Severity Assessment in Acute Appendicitis – Do Surgeons Agree?
- Miranda Ocklind

Imaging first: Reducing invasive procedures in the diagnosis of acute appendicitis
- Theresa Brem Sørensen

Comparative Impact and Feasibility of Epidural Analgesia on Postoperative Complications in Emergency Laparotomy
- Taha Al-Taei

Laparoscopy vs. Laparotomy for the Diagnosis and Treatment of Acute Mesenteric Ischemia: A Systematic Review
- Natascha Dyreholdt

How should non-operative management for blunt splenic trauma after initial treatment and diagnosis be structured? A scoping review
- Stine Krog

Has the Transition from Open Surgery to Laparoscopy Changed the Strategy for Intraoperative Biopsy in Surgery for Perforated Ulcer?
- Mathilde Bach

Plenum

(300)

Lille Sal

(200)

Colorectal frie foredrag (11.00 - 12.00)

(fortsat)

Sessionsledere

Erik Frostberg
Andreas Hurup Nordholm

11.36 - 11.46

Risk factors for High grade dysplasia and cancer in endoscopically removed lesions in Denmark 2014-2021

Asger Eller, Regional Hospital of Viborg, Department of surgery, Viborg, Denmark

11.48 - 11.58

The effect of Fecal Microbiota Transplantation on quality of life in patients with chronic pouchitis

Sarah Jakobsen, Aalborg Universitets Hospital, Mave-Tarmkirurgisk Afdeling, Aalborg, Denmark

Mødelokale 2

(100)

Mødelokale 1

(50)

Flash Talks (20 stk) (11.00 - 12.00)

(fortsat)

Klinisk praksis i Danmark ved sten i dybe galdeveje i forbindelse medolecystektomi – en national spørgeskemaundersøgelse
- Jonas Petersen

Free Reins in Timing for Acute Cholecystectomy: A Retrospective Quality Assurance Project
- Victor Noer

Laparoscopic vs. open surgery for adhesive small bowel obstruction: A comparative analysis of postoperative complications and mortality
- Elisabeth Desirée Kjærsgaard

Well-being, Mental Health, and Work Contentment Among Junior Doctors in Abdominal Surgical Departments in Denmark
- Sofie Staal Axelsen

Emergency Surgery: Digital Patient Information
- Kenneth Rütz

Intraperitoneal treatment with fosfomycin, metronidazole, and recombinant human granulocyte-macrophage colony-stimulating factor in patients with multi-quadrant peritonitis undergoing abdominal surgery: A randomized placebo-controlled trial (TRIPLE)
- Akhmedkhan Dubayev

Point-of-care ultrasound in the surgical specialty – a Danish national survey
- Chenxi Huang

Plenum

(300)

Lille Sal

(200)

Mødelokale 2

(100)

Mødelokale 1

(50)

Industrisession (12.00 - 13.00)

Intuitive Surgery

Sessionsledere
Pernille Døssing Diasso

12.00 - 13.00

The Importance of Total Practice in
Colorectal & Hernia: Building an Efficient da Vinci
Program for both Elective and Acute Care

Steffen Waage

Brystkirurgi, faglig session (12.00 - 13.00)

Sessionsledere
Ida Lolle

Omission of axillary surgery in breast cancer
– INSEMA trial

Thoralf Reimer University of Rostock

Børnekirurgi, faglig session (12.00 - 13.00)

Sessionsledere
Niels Bjørn

Transition in healthcare:
unnecessary or necessary?

Irene Schokker- van Linschoten MsC
Verpleegkundig specialist
Kinderchirurgie, aandachtsgebied colorectaal

13.00 - 14.00 Frokost og udstilling

Plenum

(300)

BJS speaker (14.00 - 15.00)

Sessionsledere
Kristoffer Andresen

Introduction:
Professor Anders Bergenfelz, Chair of the BJS Foundation

Step-up, step-back:
Current Evidence and Surgical Strategies in Severe Pancreatitis

Matti Tolonen, Consultant Emergency Surgeon, Helsinki University Hospital

Lille Sal

(200)

Uddannelsesudvalget (14.00 - 15.00)

Sessionsledere
Lasse Bugge

Nye trends for fremtidens speciallæge

Educator identity og leadership training kommer til at få mere plads i fremtidens målbeskrivelse for speciallægeuddannelsen i kirurgi.

Kom og hør om "train the trainee" og "leadership training for residents"

1. reservelæge **Karen Busk Hesseldal**, UAO
Marlene Julia Sørensen og UAO **Lasse Bugge**

Mødelokale 2

(100)

Brystkirurgi, frie foredrag (14.00 - 15.00)

Sessionsledere
Marianne Djernes Korsgaard
Tove Holst Filtenborg Tvedskov

14.00 - 14.11

Upgrade Rates and Risk Factors of Atypical Epithelial Proliferations and Papillary Breast Carcinomas Following Surgical Excision of Benign Intraductal Papillomas
- **Sanna Gunnarstein**

14.12 - 14.23

The Impact of Drain on Postoperative Seroma and Infection after Mastectomy: A Retrospective Study in Danish Women with Breast Cancer
- **Frederik Palshof**

14.24 - 14.35

Oncologic First Events in Breast Cancer Patients after Targeted Axillary Dissection
- **Frederikke Munk**

14.36 - 14.47

Benefit of adjuvant chemotherapy in patients with triple-negative, T1abN0 breast cancer – a systematic review and meta-analysis
- **Christina Hassing**

14.48 - 15.00

Breast hamartomas and the risk of breast cancer: A nationwide retrospective analysis of 524 cases of hamartoma - **Lina Pankratjevaite**

Mødelokale 1

(50)

Børnekirurgi, frie foredrag (14.00 - 15.00)

Sessionsledere
Niels Bjørn

14.00 - 14.11

Complete bladder augmentation with decellularized tissue matrix and autologous micrografts. Findings from a porcine pilot study.

14.12 - 14.23

Anti-MFAP4 Antibody - A novel therapy to prevent anastomotic stricture after surgery for esophageal atresia: Animal experimental study

14.24 - 14.35

Pathology and classification of pediatric neuroendocrine tumors in Denmark 1995-2020

14.36 - 14.47

Pouch Failure and Management After Ileal-Pouch–Anal Anastomosis in Paediatric Ulcerative Colitis: A Nordic Multicentre Cohort Study

14.48 - 15.00

Vacuum-assisted closure in pediatric damage-control laparotomy: A single center retrospective review.

15.00 - 15.30

Pause – udstilling og mød industrien med David Reiss Axelsen, Aarhus Universitetshospital.

Plenum

(300)

Flash talks (15.30 - 17.00)

Sessionsledere

Line Toft Tengberg
Dunja Kokotovic

15.30 - 16.00

Flash talks (8 stk)

Breast Abscess or Something More - The Role of Control Mammograms
- Maria Quaresma

Effect of neoadjuvant chemotherapy on surgical outcomes in Danish breast cancer patients between 2018-2023
- Sinem Saritas

Recidiv af hiatushernie med intratorakal perforation og respiratorisk svigt under graviditet - en case report
- Malene Dissing

Clinical characteristics and proportion of patients with chronic hepatitis B or C infections and concomitant hepatocellular carcinoma: A cohort study based on nationwide Danish registries
- Jeanett Klubien

Waiting time before local treatment and survival outcomes in biliary tract cancer
- Diana Elena Renteria Ramirez

Examining the impact of propranolol on preoperative anxiety and on tumorigenic changes in patients with pancreatic ductal adenocarcinomas: a protocol for a randomized, triple-blinded, placebo-controlled pilot trial (The IMPULS trial)
- Adile Orhan

Addressing the Primary Complaint: Prospective Outcomes After Laparoscopic Cholecystectomy for Uncomplicated Gallstone Disease
- Liv Erritzøe

Video consultations in preoperative assessment of gallstone patients
- Anna Ramsgaard-Jensen

Lille Sal

(200)

15.30 - 16.30

Cheflægesession

Sessionsledere

Inge Marie Poulsen
Peter Svenningsen

Hvad er opgaven for de kirurgiske cheflæger?
Organisering af kirurgiske afdelinger og ledelsesdilemmaer

Mødelokale 2

(100)

Flash talks (15.30 - 17.00)

15.30 - 16.00

Flash talks (8 stk)

Sessionsledere

Claudia Jaensch
Theresa Brem Sørensen

A national perspective on CME as surgical treatment for right sided colonic cancer among Danish colorectal surgeons
- Celine Neergaard

Risk of re-operation after Bascom pit pick for pilonidal sinus disease. A Danish population-based cohort study
- Ida Kaad Faurschou

Pre-Surgery Physical Performance and AI-Driven Mortality Risk Prediction in Colorectal Cancer Surgery
- Philip Steenfos

Prognostic importance of tumour deposits with and without concurrent lymph node metastases in patients with Stage III colon cancer
- Clara Brinkmann

Efficacy and safety of freshly collected autologous adipose tissue for complex anal fistulas in non-IBD patients: a prospective cohort study
- Nina Sørensen

Systematic review on the incidence and risk factors for non-reversal of a diverting stoma after restorative rectal cancer resection
- Oliver Buch

The prognostic impact of lymph node yield in deficient and proficient mismatch repair colon cancers: a retrospective national cohort study
- Frederik Bækgaard

Same-day discharge after laparoscopic colorectal surgery: A systematic review
- Victoria Rosberg

Mødelokale 1

(50)

15.30 - 16.30

Generalforsamling
Dansk Brystkirurgisk Selskab

Plenum

(300)

Flash talks (15.30 - 17.00)

(fortsat)

16.00 - 16.30

Flash talks (8 stk)

Shorter operative times following robotic-assisted transabdominal preperitoneal inguinal hernia repair (TAPP) compared to laparoscopic TAPP
- Dinan Arunthavanathan

Staples versus sutures for skin closure after surgery: A systematic review and meta-analysis
- Anna Kingo Jensen

Smoking cessation and weight loss before ventral hernia repair – can we really justify this? a single center cohort study
- Line Marker

Female patients are more often dissatisfied with perioperative information when undergoing ventral hernia repair: a nationwide survey and register-based cohort study
- Evy Á Lakjuni

Evaluating the Efficacy of Suture Mesh vs. Planar Mesh in Ventral Hernia Treatment – a protocol for a randomized, blinded multicenter study
- Kathrine Holte

Supervision of hernia surgery
- Amanda Brask Birck

The NEOLAR Insight Strategy: from a national randomized clinical trial to tissue-based analyses of predictive biomarkers in rectal cancer
- Mia Sørensen

Plasma oncofetal chondroitin sulfate proteoglycans enable sensitive minimally invasive detection of colorectal cancer
- Claus Anders Bertelsen

Lille Sal

(200)

Mødelokale 2

(100)

Flash talks (15.30 - 17.00)

(fortsat)

16.00 - 16.30

Flash talks (8 stk)

Sessionsledere

Thomas Krarup
Lene Spanager

Marked compositional, spatial, and functional shifts occur in mucosal bacteria associated with pre-cancerous colonic lesions: a systematic review
- Michael Chieng

Method of Anal sparing versus extirpation in rectal cancer (MAVEREC)
- Muthanna Al-Jumaili

Less severe complications in high anterior resections with Single-Stapling Colorectal Anastomosis
- Emilie Schultz Hougaard

Surgical outcomes in pelvic reconstruction using robot-assisted rectus abdominis muscle flaps: A systematic review
- Christina Alexandersen

The effect of perioperative Interferon alpha-2a on postoperative immune suppression in patients undergoing colon cancer surgery: A randomized controlled trial
- Helin Yikilmaz Pardes

Understanding surgery refusal in patients with colorectal liver metastases
- Lærke Andreassen

Surgeons' perspectives on the treatment of adults with acute appendicitis
- Morten Grundahl

Perforeret divertikulitis (Hinchey III): Laparoskopisk lavage eller resektion?
- Marie Tønsberg Ib

Mødelokale 1

(50)

Plenum

(300)

Flash talks (15.30 - 17.00)

(fortsat)

16.30 - 17.00

Flash talks (8 stk)

Post-colonoscopy colorectal cancer and the association with endoscopic findings in the Danish colorectal cancer screening programme
- **Simon Ladefoged Rasmussen**

Autologous Adipose Tissue Injection as Treatment for Ileoanal Pouch-Related Fistulae
- **Hayder Alqaisi**

Seeing is Believing: Enhancing Colorectal Surgery with Real-Time Laser Speckle Imaging
- **Rupan Paramasivam**

Quality of life in diverticular disease: Translation and validation of the Danish version of the diverticulitis quality of life instrument (DV-QOL)
- **Helene R Dalby**

Neoadjuvant Immunotherapy and Watchful Waiting for Localized dMMR Colon Cancer: The RESET C2 Study Protocol
- **Andre Souchon**

Long-Term Pain Impact After Rectal Cancer Surgery: Trajectories and Predictive Factors from a Cohort Study
- **Therese Juul**

Refined algorithm for identifying recurrence among patients with non-metastatic colorectal cancer based on Danish national health data registries
- **Mikail Gögenur**

Lille Sal

(200)

Mødelokale 2

(100)

Flash talks (15.30 - 17.00)

(fortsat)

16.30 - 17.00

Flash talks (7 stk)

Sessionsledere

Claudia Jaensch
Mathilde Bach

Transanal irrigation in clinical practice: a scoping review
- **Elsa Spildt Jacobsen**

Disease severity and quality of life among patients with chronic diverticular disease – baseline characteristics of a prospective cross-regional multicenter cohort
- **Josefine Secher**

Ulcerative Colitis and the development of colorectal cancer: A systematic review and meta-analysis
- **Martha Pollen Johansen**

Rectal Reality Check: What's the Right Way to Insert a Suppository? – A Protocol
- **Mikkel Frandsen**

The impact of intraoperative radiotherapy on survival outcomes in localized colorectal cancer: a systematic review and meta-analysis
- **Angelina Righult**

The low anterior resection syndrome (LARS) score: A systematic review of translations and validations
- **Nanna Mundbjerg Nielsen**

Chronic diverticular disease - Validity of a register-based diagnosis of chronic diverticular disease
- **Lukas Schousboe**

Mødelokale 1

(50)

Plenum

(300)

Lille Sal

(200)

17.00 - 18.00

Generalforsamling
DKS og DKO

Mødelokale 2

(100)

Mødelokale 1

(50)

Fredag
d. 14. november

08.00 - 08.30 Registrering, udstilling og morgenforplejning

Plenum

(300)

Lille Sal

(200)

Hernie, faglig session (08.30 - 09.30)

Sessionsledere
Kristoffer Andresen
Nellie Zinther

08.30 - 08.45

Nyt fra Herniebasen
Frederik Helgestrand

08.45 - 09.00

Lyskebrok,
Marie Kirk

09.00 - 09.15

Ventralhernie,
Nadia Henriksen

09.15 - 09.30

Præ- og postoperative restriktioner,
Nina Wensel

Mødelokale 2

(100)

Sygeplejerskesession (08.30 - 09.45)

Standardisering i kirurgisk behandling og pleje
– evidens, erfaringer og forbedringsmuligheder

08.30 - 08.45

Dorthe Hjort, klinisk oversygeplejerske og
Mira Jørgensen, klinisk sygeplejespecialist i
Afdeling for Værdi og Sammenhæng,
Rigshospitalet

08.45 - 09.00

Janne Orbæk, klinisk sygeplejespecialist og
projektsygeplejerske, Gastroenheden, Hvidovre
Hospital

09.00 - 09.15

Peter Svenningsen, Cheflæge ved Kirurgisk
sektion, Nordsjællands hospital, Formand for
Akutkirurgi databasen, RKKP og Formand for
Lærings og Kvalitetsteams, Akutkirurgi, Danske
Regioner

09.15 - 09.30

Spørgsmål og debat

Mødelokale 1

(50)

Plenum

(300)

Immunterapi ved colorectal cancer (09.30 - 10.30)

Sessionsledere
Per V Andersen

09.30 - 10.30

RESET-R: Immunterapi ved lokalavanceret rectumcancer, Onkolog Line Schmidt Tarpgaard, OUH

- Resultater, responsrater og kliniske perspektiver

Coloncancer og organbevarelse
Ismail Gögenur

- RESET-C: Første skridt mod organbevarelse i coloncancer
 - Resultater, erfaringer og læring fra det første studie
- RESET-C2: Intensitet af behandling i forhold til kirurgisk og onkologisk risiko
 - Design og rationale, hvordan vi balancerer risici og hvad det betyder for fremtidig implementering

Diskussion

Lille Sal

(200)

Industrisession (09.30 - 10.00)

Medtronic

09.30 - 10.00

Clinical experience with HUGOTM RAS in treating ventral hernias

Dr. Sebastien Strypstein, General, abdominal wall and HPB surgeon, Delta hospital Roeselare and St. Andries hospital Tielt, Belgium

Mødelokale 2

(100)

Sygeplejerskesession (09.30 - 10.30)

Veje til at styrke og synliggøre kirurgisk sygeplejefaglighed

09.30 - 09.50

Standardiserede mål for den postoperative sygepleje

- **Fathieh Yousef**, klinisk sygeplejespecialist, Organkirurgisk afdeling, Rigshospitalet

09.50 - 10.30

Fundamentals of Care – det gode kliniske følgeskab til det kirurgiske patientforløb

Pia Kjær Christensen, lektor, klinisk sygeplejespecialist, Ortopædkirurgisk Afdeling, Aarhus Universitetshospital

Mødelokale 1

(50)

HPB Frie foredrag (09.30 - 10.30)

Sessionsledere
Jakob Kirkegård, AUH

09.30 - 09.42

Indocyanine Green assessment during pancreaticoduodenectomy: risk of postoperative leakage

09.42 - 09.54

Liver Fibrosis in One-Year Protocol Biopsies after Liver Transplantation is Associated with Graft Loss: Results from a Nordic Multicenter Cohort Study

09.54 - 10.06

Nationwide study on survival and recurrence of hepatocellular carcinoma after ablation as first treatment

10.06 - 10.18

Does cholecystectomy or biliary sphincterotomy prevent new episode of acute pancreatitis or biliary event following endoscopic treatment of gallstone induced pancreatitis with walled-off pancreatic necrosis?

10.18 - 10.30

A Validated Algorithm to Detect Recurrence After Pancreatic Cancer Surgery in Denmark Using Nationwide Healthcare Registries

10.30 - 11.00

Pause – udstilling og mød industrien med Niels Bjørn, Odense Universitetshospital.

Plenum

(300)

YDK Session (11.00 - 12.00)

Kirurgisk kontinuitet i modvind: Ansættelsesstop, skill decay og vejen tilbage

Sessionsledere
Victoria Berner-Hildorf
Amanda Brunchmann.

11.00 - 11.10

Introduktion til skill decay og hvordan man kan komme bedre tilbage fra orlov (ved YDK)

11.10 - 11.30

Oplæg speaker

11.30 - 11.50

Oplæg v. Wendy Schou, Forperson Yngre Læger

11.50 - 12.00

Diskussion/spørgsmål

Lille Sal

(200)

Hernie, frie foredrag (11.00 - 12.00)

Sessionsledere
Nellie Zinther
Allan Dorfelt

11.00 - 11.12

Reduced risk of recurrence following laparoscopic transabdominal preperitoneal (TAPP) inguinal hernia repair using the self-fixating ProGrip™ mesh compared to tack fixation (PROTACK Trial): A prospective randomized clinical trial of 342 cases

11.12 - 11.24

Patients' motivation for undergoing elective repair of a primary ventral hernia: a descriptive mixed-methods study

11.24 - 11.36

Slowly absorbable sutures do not increase the risk of reoperation for recurrence compared with non-absorbable sutures in primary ventral hernia repair: a nationwide register-based cohort study.

11.36 - 11.48

Establishment and overall results of the ventral hernia cohort in the AFTERHERNIA project: a nationwide register- and survey-based cohort study

11.48 - 12.00

Impact of obesity and smoking on reintervention risk after elective umbilical hernia repair with mesh – A nationwide study

Mødelokale 2

(100)

Endoskopi faglig session (11.00 - 12.00)

Sessionsledere
Signe Brøholm Ellebæk, OUH og
John Gásdal Karstensen, Hvidovre

11.00 - 11.30

New horizons in the endoscopic treatment of early colorectal cancer

Barbara Bastiaansen, Amsterdam

11.30 - 12.00

Innovations in Action – Therapeutic EUS

Peter Vilmann, Herlev

Mødelokale 1

(50)

Sygeplejerskesession (11.00 - 13.00)

11.00 - 11.25

Hvad sker der med den professionelle omsorg i en reformatid?

Annesofie Lunde Jensen,
Klinisk sygeplejespecialist Steno
Diabetes Center, Aarhus Universitetshospital og
lektor ved Klinisk Institut,
Aarhus Universitet og Forperson i Dansk
Sygepleje Selskab, DASYS

11.25 - 11.50

Omsorg fra et ledelsesperspektiv

Mette Misfeldt, Chefsygeplejerske Afdeling for
Kræftbehandling, Rigshospitalet

11.50 - 12.00

Spørgsmål til begge

12.00 - 12.25

Hvad er vigtigt for dig kampagnen

Hejdi Gamst-Jensen, seniorforsker, Hoved-Orto-
Center, Rigshospitalet

12.25 - 12.50

Når operationen aflyses - patientoplevede
konsekvenser

Anette Viftrup, klinisk sygeplejespecialist, ph.d.
Bedøvelse og Operation, Aarhus
Universitetshospital

12.50 - 13.00

Spørgsmål

Plenum

(300)

Videosession (12.00 - 13.00)

Sessionsledere

Per Vadgaard Andersen

Komplikationer

Nye behandlingsmetoder

Sjældne cases

Tips and tricks

Lille Sal

(200)

HPB faglig session (12.00 - 13.00)

Sessionsledere

Hans-Christian Pommergaard, RH
Kristian Schaumburg Kiim, RH

12.00 - 12.12

Den epidemiologiske udvikling af kolorektale levermetastaser,
Jakob Kirkegård, AUH

12.12 - 12.24

Stereotaktisk strålebehandling afkolorektale levermetastaser,
Mette Felter, HeH

12.24 - 12.36

Ablation af kolorektale levermetastaser,
Hans-Christian Pommergaard, RH

12.36 - 12.48

Levertransplantation som behandling ved kolorektale levermetastaser,
Kristian Schaumburg Kiim, RH

12.48 - 13.00

Ex vivo vækst af kolorektale levermetastaser,
Kamilla Zornhagen, METSYSTEM

Mødelokale 2

(100)

Endoskopi frie foredrag (12.00 - 13.00)

Sessionsledere

Rune Erichsen, Randers og
Stine Dam Henriksen, Ålborg

12.00 - 12.15

Endoscopic assisted electrochemotherapy in addition to neoadjuvant treatment of locally advanced rectal cancer: a randomised clinical phase II trial

12.15 - 12.30

Diagnostic performance of real time characterization in artificial intelligence-assisted colonoscopy

12.30 - 12.45

Patients’ experiences and attitudes toward the use of real-time artificial intelligence-assisted colonoscopy - A qualitative interview-based study

12.45 - 13.00

Impact of Acute Lower Endoscopy on Diagnostic and Therapeutic Outcomes in Patients with Acute Lower Gastrointestinal Bleeding: A Retrospective Study

13.00 - 14.00 Frokost og udstilling

Plenum

(300)

Lille Sal

(200)

DKO invited speaker (14.00 - 15.00)

Sessionsledere
Steffen Jais Rosenstock

14.00 - 15.00

Multimodal cancer treatment with endoscopy
Prof Michal F. Kaminski, FESGE, FJGES

Mødelokale 2

(100)

Nye og igangværende forskningsprojekter (14.00 - 15.00)

Sessionsledere
Kristoffer Andresen

14.00 - 14.12

Evaluating the Efficacy of Suture Mesh
Kathrine Holte

14.12 - 14.24

Abstract DKS 2025 FILAR
Pernille Øhlenschläger Larsen

14.24 - 14.36

Tumor response to sonoporation: A clinical translational RCT of contrast-enhanced ultrasound–induced changes in the tumor microenvironment of colorectal liver metastases
Maja Mønster Jeppesen

14.36 - 14.48

AI-Driven Personalized Perioperative Management in Colorectal Cancer: A randomized Controlled Clinical Investigation - The AIDPRO-CRC Investigation: a study protocol
Magnus Nordblad Jung

14.48 - 15.00

Anterior gastropexi med eller uden fundoplikation som kirurgisk behandlingsmetode til de paraøsofageale brok
Lene Østerballe

Mødelokale 1

(50)

14.00 - 15.00

Patient inddragelse

Sessionsledere
Helene Juul Würtz

”Behøver vi inddrage patienterne i valg af behandling eller kirurgi?”

- Panel session hvor der drøftes patientinddragelse fra den sundhedsprofessionelles og patientens perspektiv
 - Sundhedsprofessionelle: Prof. Overlæge Michael Achiam, Prof. Overlæge Claus Varnum, ortopædkirurg
 - Patient og patient repræsentant Inger Thrysøe, Formand for Tarmkræftforeningen
- Kort og godt om patientinddragelse og hvad det betyder at praktisere ”fælles beslutningstagning”

15.00 - 15.30**Pause – udstilling og mød industrien med Lasse Bugge, Odense Universitetshospital.**
