

National postgraduate course under DKS Use of Infrared technology in general surgery 2.0

The first course on infra-red technology was successfully held in March 2019. The knowledge and application of the technology have increased since then and as a consequence Dansk Kirurgisk Selskab and Olympus Denmark invite you again to a postgraduate course in the use of infra-red technology in the area of general surgery. The course is held in English.

Purpose

This 1-day training course has the purpose of sharing the knowledge and use of infra-red technology within general surgery. The course will be relevant for surgeons with an interest of cholecystectomy and perfusion.

Date

9 February 2021

Location

Restaurant Nordatlanten
Nordatlantisk promenade 1
DK-5000 Odense

Price

DKK 595,- per participant, including meals

Registration must be made by mail to

met@olympus.dk – please refer to subject:
"Registration for IR workshop under DKS" and
please state your name, e-mail and hospital.

Deadline for registration

No later than 14 December 2021

We reserve the right to cancel the arrangement in case of low participation rate
