

Dansk Kirurgisk
Selskab

Årsmødet 2023

d. 16. november - 17. november 2023

Torsdag

d. 16. november

08.00 - 08.20 Registrering og kaffe

Hangar 4 og 5

08.20 - 08.45 Åbning og prisoverrækkelse - Velkomst og overrækkelse af Lippmannprisen ved Jens Hillingsø

09.05 - 10.05 Plenumsession BEHANDLING AF FEDME
Chairman: Viggo Kristiansen, Frederik Helgstrand, Maria Svane

09.05 Medicinerens perspektiv, Carsten Dirksen

09.35 Kirurgens perspektiv, Peter Funch

09.45 Paneldebat om patientudvælgelse

10.05 - 10.30 **Firmapraesentationer, Sessionsleder: Henrik Flyger**

Mölnlycke Bæredygtighed på operationsstuen – initiativer, vi kan tage sammen allerede i dag, Michael Steen Amundsen

Ambu Balance i en travl hverdag?

Medtronic Medtronic goal to solve unmet needs across the patient journey, Magnus Levin

Karl Storz Image1 S™ Rubina® - mORe to discover, Rene Jørgensen

VingMed Forebyggelse af fascial retraction, Karina Westerby

Intuitive Intuitive Update, Thomas Karup

Santax Sådan kan fremtiden se ud!, Anja Fagerström

Hemedic TisgenX, Jonathan Lasthein

CMR surgical Versius operationsrobot - small & modular

Smith & Nephew Transformer din sårbehandling til fremtidens patienter, Malene Falkesgaard og Pia Dræby Sessingø

Johnson & Johnson Recycling af J&J produkter, Kim Arved

10.32 - 10.55 Pause og udstilling

Hangar 3

11.00 - 12.00

Intuitive v. moderator: Ismail Gögenur

Speaker: Jim Khan, Queen Alexandra Hospital Portsmouth

“Da Vinci assisted right-sided CME w/CVL & Intracorporeal anastomosis - the Optimal combination”

Hangar 1 og 2

10.55 - 12.10

Postersession, sessionsledere: Hans-Christian Pommergaard og Anders Knudsen

-
- 01 The microbiome of the appendix differs in patients with and without appendicitis, Siv Fonnes
-
- 02 Outcomes of a delirium prevention program after major abdominal emergency surgery; A prospective interventional study, Katrine F. Finne
-
- 03 The effects of troponin screening among patients undergoing acute high-risk abdominal surgery, Charlotte Kanstrup
-
- 04 Acute abdominal CT scans: Are they all justified?, Alptug Koc
-
- 05 One-year outcomes following operative or non-operative management of adhesional small bowel obstruction, Henry Smith
-
- 06 The impact of lock-down periods during the COVID-19 pandemic on surgical residency training in the North Denmark Region, Rasmus Virefeldt Flak
-
- 07 The burden of flare-ups in patients admitted with diverticular disease, Helene Dalby
-
- 08 Psychological intervention for patients with biopsychosocial late effects following surgery for colorectal cancer with peritoneal metastases - a feasibility study, Henriette Vind Thaysen
-
- 09 Days Alive and Out of Hospital at 90 days as a composite outcome measure in patients undergoing elective surgery for colorectal cancer in Denmark – a nationwide, retrospective register study, Karoline B. Brâuner
-

- 10 Erectile dysfunction is common after rectal cancer surgery: a cohort study, Sebastian B. Hansen

- 11 The impact of socioeconomic factors on the risk of colorectal cancer recurrence: A national register-based study, Sissel Ravn

- 12 Patient-led follow-up with the use of an advanced digital care guide to increase self management in rectal cancer patients., Ida Hovdenak

- 13 Comparison of the effect of electrical stimulation of the stomach or the sigmoid colon, in animals undergoing surgery and heated intraperitoneal chemotherapy. Anne K. Martensen

- 14 Time trend in incidence of pilonidal disease, Ida K. Faurschou

- 15 The association between postoperative hyperglycemia and complications after elective colorectal cancer surgery in patients without diabetes – a propensity score matched study, Emilie P. Colov

- 16 Robotic versus laparoscopic approach for left-sided colonic cancer: A nationwide cohort study, Line K. Larsen Rein

- 17 Psychiatric and educational aspects of familial adenomatous polyposis - a nationwide Danish cohort study with matched controls, John Gásdal Karstensen

- 18 Surgical treatment of Pilonidal sinus disease. A systematic review, Ida-Marie M. Wiinblad

- 19 Cost-utility analysis of personalized perioperative treatment bundles, Andreas Rosen

- 20 Interpoc™, an absorbent intestinal tampon in adults with ileostomy is safe and tolerable, Mohamed A. Tahlil

- 21 Factors affecting non-adherence to diagnostic colonoscopy after positive Immunochemical faecal occult blood test (iFOBT), Christian F. Nielsen

- 22 The Impact of Crohn's Disease in Patients with Colorectal Cancer: A Danish Nationwide Cohort Study with propensity score matched analysis, 2009-2019, Martha P. Johansen

- 23 En simpel skabelon til evaluering af hæmoridesygdom og resultatet af en operation i overensstemmelse med det Europæiske Kolorektale selskabs retningslinjer, Andre H. Campos

-
- 24 Hidradenitis suppurativa in patients with pilonidal disease, Ida K. Faurschou
-
- 25 Postoperativ paralytisk ileus efter akut operation for ileus, David R. Axelsen
-
- 26 Diagnostic tools for appendicitis are not used by surgeons: a survey, Nadir Noureldin Abdella Bahta
-
- 27 Impact of colonic diverticulosis on daily life. The DIVIPACT study, Helene R. Dalby
-
- 28 Artificial Intelligence in Danish Trauma care: Predicting in-hospital mortality, Andreas Millarc
-
- 29 Granulomatous inflammation and fibrosis in the porcine gastro-intestinal tract after application of TachoSil and Biodesign patches, Eva Budtz
-
- 30 Similar rectal microbiome in patients with and without appendicitis, Siv Fonnes
-
- 31 Are surgical trainees ready to perform surgery independently? The supervisors' perspectives: a scoping review, Karen B. Hesseldal
-
- 32 Kollagenase-producerende bakterier findes hyppigt ved anastomoselækage efter kolorektal kirurgi, Anders Bech Jørgensen
-
- 33 Langsomt skærende, løs setonligatur efterfulgt af senare fistulotomi, effekt på heling af idiopatisk perianal fistel og indflydelse på anal kontinens, Gunnar Olaison
-
- 34 Optimizing preoperative nutrition and physical function in colon cancer patients, Michelle Stadelhofer
-
- 35 Inflammatory bowel disease and mortality among colorectal cancer patients with infections, Sham Al-Mashadi Dahl
-
- 36 Characteristics of abscess-forming pilonidal disease compared to non-abscess forming pilonidal disease, Ida Kaad Faurschou

12.10 - 12.30 Vælg Klogt session, Fravalg af histologi på makroskopisk normale galdeblærer på yngre patienter v. Lars Tue Sørensen og Jacob Rosenberg

12.30 - 13.40 Frokost og udstilling – opdeling af lokaler

Hangar 2

Fysisk og psykisk rehabilitering, Sessionsledere:
Kristine Elberg Dengsø & Annette Kolding Rørvik

13.35 - 14.05

Exercise training during neoadjuvant chemotherapy as preoperative optimization. Gruppeleder & postdoc Casper Simonsen, v. CFAS, Rigshospitalet

14.05 - 14.35

Præoperativ stressreduktion hos kirurgiske patienter
Professor, cand. Psyk., dr. med. Robert (Bobby) Zachariae,
Aarhus Universitetshospital

14.35 - 14.50

Abstracts
14.35 Does the impact of a colostomy on quality of life change with time? - prospective evaluation in rectal cancer patients
Karen Jacobsen

14.42 RESPONSE: Development of a digital care guide to accompany stage I and II colon cancer patients safely through follow-up. Ida Hovdenak

Hangar 3

Firmasessioner af 1 times varighed med Dr. Nadia Henriksen (Medtronics) som sessionsleder

13.35 - 14.50

Titel: "Robotic hernia surgery with The Medtronic Hugo RAS robotic system"
Dr. Filip Muysoms
Head of the department of abdominal surgery
AZ Maria Middelaers Hospital, Ghent, Belgium
Ass. Prof. of Surgery
Herlev Hospital, Denmark

Hangar 1

Frie foredrag – ECV/HPB med Jonas Sandberg og Michael Achiam som sessionsledere

13.40

Central ligation or partial preservation of the right gastric artery does not affect conduit or anastomotic perfusion during robot-assisted resection of gastroesophageal junction cancer: A randomized clinical trial,
Jens Osterkamp

13.47

Risk factors for short- and long-term complications following ventral hernia repair using the peritoneal flap technique, Kristian A. Nielsen

Hangar 4

Frie foredrag - Kolorektal med Tina Fransgård, Susanne Hass & Mai-Britt Worm Ørntoft som sessionledere

13.35

Real-time adenoma detection rate in artificial intelligence-assisted colonoscopy - A cluster-randomized controlled multicentre trial,
Ronja Lagström

13.42

Fecal immunochemical testing for selecting patients with symptoms of colorectal cancer referred for fast-track colonoscopy: A multicenter prospective cohort study of 1615 Danish patients,
Mees Suzanne Evelien Mansvelders

Hangar 5

Frie foredrag - Akut med Thomas Korgaard Jensen & Line Toft Tengberg som sessionsledere

13.40

Morbidity in routine laparoscopic appendectomy – a regional cohort study, Anders Bang Nielsen

13.47

Patient-reported health related quality of life after emergency laparotomy,
Liv i Soylu

13.54

Health-related quality of life is a predictor of readmission following emergency laparotomy, Liv i Soylu

Hangar 1(fortsat)

13.54

Treatment of intrathoracic anastomotic leakage following esophagectomy for gastroesophageal cancer: a systematic review. Andreas W. Mucha

14.01

PERISCOPE II Treatment of peritoneal dissemination in stomach cancerpatients with cytoreductive surgery and hyperthermic intraperitoneal chemotherapy - A multicentre randomised phase III trial – Julie Lykke Harberg

14.08

"Watchful waiting" strategi af ukompliceret galdesten er ikke uden omkostninger. Liv Erritzøe

14.15

EUS-guided drainage of large, walled-off pancreatic necroses using plastic double pigtail stents vs. lumen-apposing metal stent (PLAMS): a single-centre, open-label, randomized, controlled, superiority trial. John Gasdál Karstensen

14.22

Pancreatic Cancer in Southern Denmark between 2019 - 2022: A Descriptive analysis of patients not reported in the Danish Pancreas Cancer Database registry. Cara Bhuller

14.29

Piperacillin/tazobactam concentrations in the liver and biliary system - evaluation of the current perioperative prophylaxis regimen. Louise Lerche Pontoppidan

14.36

Impact of Transient Steatosis on Liver Regeneration and Post-Hepatectomy Liver Failure in Rats, Andrea Lund

Hangar 4 (fortsat)

13.49

Reduction in incidence of recurrence and time to recurrence in stage I-III colorectal cancer through 2004 to 2019 - a nationwide Danish cohort study. Jesper Nors

13.56

Tarmens mikrobiom i præoperative screenings afføringsprøver er forskellige fra patienter med eller uden anastomoselækage efter kolorektal kirurgi. Anders Bech Jørgensen

14.03

Cancer in patients with familial adenomatous polyposis – a nationwide Danish cohort study with matched controls. John Gásdal Karstensen

14.10

Heterogenitet mellem primærtumor og lymfeknudemetastaser hos patienter opereret for koloncancer. Astrid L. B. Bennedsen

14.17

Perioperative metformin treatment to reduce postoperative hyperglycemia after colon cancer surgery - a randomized clinical trial. Emilie Palmgren Colov

14.24

Risk of incisional hernia at extraction site after laparoscopic right hemicolectomy Emil Riahi

14.31

Recurrence and survival following cytoreductive surgery and hyperthermic intraperitoneal chemotherapy for peritoneal metastases of colorectal origin. Sissel Ravn

14.38

Systematic Screening for Sexual Dysfunction in Males Surgically treated for Rectal Cancer. Therese Juul

Hangar 5 (fortsat)

14.01

Trans arterial embolization of non-variceal upper gastrointestinal bleeding: a Danish single center study of safety and efficacy, Cihan Ozen

14.08

The association between frailty and differentiated postoperative complications in patients undergoing major emergency abdominal surgery, Christian Snitkjær

14.15

Objectively quantified sleep and quality of recovery in patient undergoing major abdominal emergency surgery: a prospective cohort study in the in- and outpatient setting, Michael Tvilling Madsen

14.22

Effects of opioid pain medication strategy on postoperative risk of readmission and mortality - a study of 239,582 surgical cases from Denmark, Stasia Winther

14.29

Resultater og risikofaktorer efter akut operation for ileus, Marianne L. Lomholt

14.36

Risikofaktorer for reblødning og mortalitet efter profylaktisk transarteriel embolisering hos patienter med højrisiko peptisk ulcusblødning: Et retrospektivt single center kohortestudie, Lasse R. Jensen

14.43

The treatment and outcomes of malignant small bowel obstruction in Denmark, Nanna Hupfeld

14.50

Retrospective outcome audit of surgery for suspected acute appendicitis in children, Lærke B. Sjølland

Hangar 1

Hangar 4 (fortsat)

Hangar 5 (fortsat)

14.45

Treatment strategies for pT1 rectal cancer: a retrospective analysis of the Danish Colorectal Cancer Group registry, Henry Smith

14.57

Comparison of follow-up strategies after non-operative treatment of traumatic splenic injuries: A systematic review, Amanda Olsen

14.52

Langtidsresultater efter transanal total mesorektal excision for rektal cancer i Danmark: Et prospektivt multicenter studie fra den sene implementeringsfase, Lasse R. Jensen

14.50 – 15.40

Pause og udstilling

Hangar 2

Teknologi og Kirurgi med Ida Hovdenak
Marianne Krogsgaard som sessionsledere

15.25 - 16.00

Black Box Videooptagelser på operationsstuen - tør vi (bør vi) diskutere performance?
Afdelingslæge & PhD Jeanett Strandbygaard og sygeplejerske Birgitte Jensen, Juliane Marie Centret, Rigshospitalet

16.00 - 16.40

Simulationstræning giver sygeplejersker bedre indsigt i operationen og sænker stressniveauet
Sygeplejerske Tascha Coorvoe og kirurg & PhD Rebecca Skov, Professor Jonas Peter Eiberg v. Karkirurgisk Klinik, Rigshospitalet

Hangar 3

Kirurgens rolle ved palliativ behandling – live enquete og diskussion i plenum med Marleen Buijs og Sofie Amalie Klüver-Kristensen som sessionledere

Ekspertpanel:

Pieter de Heer (ECV Rigshospitalet)
Torsten Pless (HPB, OUH),
Ulla Jacobsen Kelly (Palliativ læge, OUH)

15.25

Introduktion

15.30

Live enquete og diskussion om kirurgi i den palliative fase. Med oplæg om medicinsk & kirurgisk behandling m.h.p. symptomlindring.

15.50

Live enquete og diskussion om uddannelse med henblik på behandling af palliative patienter. Med oplæg om udfordringer i behandling af palliative patienter.

16.10

Live enquete og diskussion om åben indlæggelser. Med oplæg om kommunikation ift behandlingsmuligheder, og tips & tricks fra eksperterne om palliativ kirurgi.

Hangar 1

Frie foredrag – HPB med Peter Nørgaard og HC Pommersgaard som sessionsledere

15.40

Assessing the value of deep neural networks for postoperative complication prediction in pancreaticoduodenectomy patients, Mikkel Bonde

15.50

The CIRCPAC Study: Implementing non-invasive circulating tumor DNA and circular DNA analysis in patients with localized pancreatic cancer to optimize pre- and postoperative treatment, Mai-Britt Ørntoft

Hangar 4

Frie foredrag kolorektal med Tina Fransgård, Susanne Hass og Mai-Britt Worm Ørntoft som sessionledere

15.25

Association of protective loop transverse ostomy vs. loop ileostomy on clinical outcomes in patients undergoing minimal invasive TME for rectal cancer in a contemporary ERAS care pathway, Rasmus P. Vogelsang

15.35

Preoperative prediction of lymph node status in patients with colorectal cancer. Developing a predictive model using machine learning, Morten Hartwig

Hangar 5

Frie foredrag, Hernie/Akut med Thomas Korgaard Jensen & Kristoffer Andresen som sessionsledere

15.40

Højere reoperationsrater for vævspenetrerende fiksationsmetoder og Lichtenstens procedure ved operation for lyskenære hernier - Opdaterede resultater, Aleksander Mortensen

15.50

Open vs Laparoscopic vs Robot-assisted inguinal hernia repair: A case series, Aynat Alnabhan

Hangar 1 (fortsat)

16.00

Novel powered endoscopic debridement catheter for endoscopic transmural necrosectomy of pancreatic walled-off necrosis
Gitte Aabye Olsen

16.10

Effect of postoperative complications on long-term outcomes following resection for pancreatic and periampullary cancers, Sophie Kollbech

16.20

Cutaneous Sensory Block Area of the Ultrasound-Guided Subcostal Transversus Abdominis Plane Block: An Observational Study,
Christopher Blom Salmonsén

16.30

Long-term mortality and intestinal obstruction after open cholecystectomy: a systematic review and meta-analysis,
Sofie Anne-Marie Skovbo Jensen

Hangar 4 (fortsat)

15.45

Metformin induced changes in gene expression in non-diabetic patients before and after elective colon cancer surgery – a randomized trial,
Emilie Palmgren Colov

15.55

Clinical outcomes after Bascoms cleft lift surgery a prospective study,
Natashja Pedersen

16.05

Incidence of VTE after curative surgery for colon cancer within an ERAS programme, Niklas Nygaard Baastrup

16.15

Training of radiology specialists in local staging of primary rectal cancer on MRI: a prospective intervention study exploring the impact of various educational elements on the interpretive performance, Peter Bondeven

16.25

Gastrointestinal stimulation as a treatment of postoperative ileus following cytoreductive surgery (STIMULATE) - A clinical feasibility study, Anne Kraushar Martensen

16.35

Transanal Endoskopisk Operation: Evaluering af komplikationer og recidiv over en 3-årig periode,
Cathrine K. Nielsen

Hangar 5 (fortsat)

16.00

Lightweight mesh causes better biomechanical response compared with heavyweight mesh in animal models: a systematic review,
Christopher Bach Sørensen

16.10

Assessing the Utility of Natural Language Processing for Detecting Postoperative Complications from Free Medical Text, Emilie Even Dencker

16.20

Diagnostic approach in children with suspected appendicitis,
Kristine Thaarup Matthesen

16.30

Outcomes of temporary abdominal closure versus primary closure following emergency laparotomy in non-trauma patients, Johanne Gormsen

16.40

Association between troponin I levels and mortality among patients undergoing acute high-risk abdominal surgery – a cohort study,
Charlotte Kanstrup

16.45

Generalforsamling for DKO og DKS i Hangar 2

Fredag

d. 17. november

Hangar 5

09.00 - 09.45

Invited speaker, sponseret af DKO: How to obtain optimal quality in colonoscopy
Professor Matt Rutter, University of North Tees

09.45 - 10.00

Diskussion

10.00 - 10.30

Pause og udstilling

Hangar 2

10.30 - 12.15

Fagområdet akut herniedatabasen med Majbritt Tholstrup og Frederik Helgstrand som sessionledere

10.30

Kort introduktion: Hvordan defineres er det "akutte hernie", Kristoffer Andreassen

10.40

How I do it" - det akutte lyskenære brok. Cases fra herniekirurgen, Nina Wensel

11.00

Plenum diskussion – hvad er den korrekte håndtering?

11.30

Centralisering af akutte parastomale og komplekse hernier – Introduktion og baggrund Frederik Helgstrand

11.35

Pro, Frederik Helgstrand

11.45

Con, Lars Tue Sørensen

11.55

Plenum diskussion – hvad er den korrekte håndtering?

Hangar 3

10.30 - 12.15

Fagområdet Børnekirurgi med Mark Ellebæk som sessionsleder

10.30

Long term quality of life outcomes in patients born with an anorectal malformation, Anna Gosvig Ladegaard

10.40

Tissue-engineered urothelial conduits in vivo, Nikolai Juul, RH

10.50

GLP-1 behandling ved korttarm efter midttarms volvulus hos børn, Inge Ilaoui

11.00

GLP-2 behandling af børn med korttarmssyndrom Evidens og erfaringer, Rasmus Gaarskær

11.20

Vacuum-behandling ved anastomoseinsufficiens og kompliceret sårheling – praktiske erfaringer, Jonas Baastrup, RH

11.30

The use of health resources, prescription drugs and concomitant diagnoses in patients referred for rectal biopsy for the diagnosis of Hirschsprungs disease in Denmark from 1998-2018 – a nationwide matched cohort study. Niels Bjørn, OUH

11.40

Endoscopic Injections of Botulinum Toxin Type A in the Piglet Esophagus Is Safe and Feasible but Did Not Result in any Significant Structural Changes 3 Days after Injection, Morten Rose Frederiksen

11.40

Clinical outcomes after cleft lift surgery in a prospective series of pediatric patients, Julie Lynge Ankersen

12.00

Erfaring med thorakoskopisk kirurgi på børn på OUH, Mark Ellebæk, OUH

Hangar 1

Fagområdet Brystkirurgi med Marco Mele som sessionsleder

10.30 - 11.05

"Pre-Versus Sub-pectoral Implant-based Breast Reconstruction After Skin-sparing Mastectomy or Nipple-sparing Mastectomy: Oncological Issues"

Hangar 4

Ulighed i sundhed og faglige kompetencer med Ida Hovdenak og Kristine Elberg Dengsø som sessionsledere

10.30 - 11.00

Abstract

10.30 - 10.45

Associations between health-related quality of life and subsequent need for specialized palliative care and hospital utilization in patients with gastrointestinal cancer – a prospective single-center cohort study, Stine Gerhardt

10.45 - 11.00

Postgraduat kursus i evidensbaseret sygepleje til kirurgiske patienter, Dorthe Hjorth

11.00 - 11.30

"Når forventningerne stikker af"
Vicedirektør Morten Ziebell
v. Sjællands Universitetshospital

11.30 - 12.00

Hænder eller hoveder? Betydningen af sygeplejefaglige kompetencer for patientsikkerheden. Seniorforsker Tove Lindhardt v. Herlev/Gentofte Hospital

Hangar 5

Fagområdet ECV med Frederik Hviid-Jensen og Nikolaj Nerup som sessionsledere

10.30 - 10.50

Behandlingsvejledning for hiatushernie
Arbejdsgruppe under ECV-fagområdet

10.50 - 11.10

Sene komplikationer og omkostninger efter bariatrisk kirurgi sammenlignet med matchet baggrundsbefolkning, Johanne Gormsen

11.10 - 11.30

Onkologisk og kirurgisk behandlingsmodaliteters indflydelse på overlevelse ved øsofagus og ventrikelcancer Danmark 2012-2018, Jonas Sandberg

11.30 - 11.50

Textbook outcome efter cardiaresektion på Rigshospitalet
Molly Ryskov Mathiesen

12.00 - 13.30

Frokost og udstilling

Hangar 2

Fagområdet Akut kirurgi med Louise Preisler og Kristian Aagaard Poulsen som sessionsledere

13.30

Introduktion

13.35

Diagnostic laparoscopy for stable penetrating abdominal traumatic injuries, exploratory study from a level one trauma center
Nathja Groth Harpsøe, Holbæk

13.50

Hvad siger de internationale guidelines?
David Reiss Axelsen, Århus Universitets Hospital.

14.05

Er CT scanning løsningen?
Samir Jawad, Radiolog Rigshospitalet

14.25

Hvad siger evidensen om laparoskopi i forbindelse med penetrerende abdominale traumer?
Emma Possfelt-Møller, Rigshospitalet.

14.40 - 14.45

Diskussion

Hangar 3

NTUITIVE:

Moderator: Nadia Henriksen

Da Vinci: more than just a tool. Why put da Vinci in your total practice? Dr. Ihsan Inan

13.45 - 14.40

Medtronic: Hvordan kan AI hjælpe med kirurgisk træning?
Magnus Levin

Hangar 1

Fagområdet Brystkirurgi - Frie foredrag med Marco Mele som sessionsleder

13.00

Predicting Additional Axillary Metastases in Breast Cancer Patients with Positive Targeted Axillary Dissection Lymph Nodes after Neoadjuvant Treatment, Frederikke Munch

13.10

Specification of Self-Reported Late-Term Impairments 3-7 Years after Primary Breast Cancer Surgery: A Nationwide Cross-Sectional Study among Danish Breast Cancer Survivors Kim M. Feder

13.20

Ten years axillary recurrence and survival after omission of axillary lymph node dissection in breast cancer patients with micrometastases or isolated tumor cells in the sentinel node: A Danish national register study, Riazan Hawas-ali

13.30

Klinefelter Syndrom og Brystkræft: Helena Holm

13.40

Guideline Compliance in Surgical Treatment of Breast Cancer in the Elderly: a Danish, Nationwide, Register-based Study, Camilla Engelbøl Friis

14.30 - 15.00

Pause og udstilling

Hangar 4

Paneldebat: Konsekvenser af Robusthedskommissionens anbefalinger med Marianne Krogsgaard & Annette Kolding Rørvik som sessionsledere

13.15 - 14.30

Moderator:
Sundhedspolitisk analytiker og journalist Ole Nikolaj Møbjerg Toft, Altinget

Deltagere:
Cheflæge, PhD, MPG, FEBS Jens Hillingsø, Afdeling for Organkirurgi og Transplantation, Rigshospitalet

Adm. Direktør
Jesper Fisker, Kræftens Bekæmpelse

Forkvinde
Dorthe Boe Danbjørg, Dansk Sygeplejeråd

Forhandlingsdirektør
Rikke Margrethe Friis, Danske Regioner

Formand
Per B. Christensen, VIA University College, Medlem af Robustheds- og Reformkommissionerne

Hangar 5

Fagområdet Kolorektal med Lilli Lundby & Andreas Nordholm-Carstensen som sessionsledere

13.30

Optimal behandling af anal absceser, Helene Perregaard

13.50

Fra dogmer til data – præsentation af ny europæisk fistelguideline, Andreas Nordholm-Carstensen

14.10

Præsentation af ny klassifikation for perianal Crohn, Lilli Lundby

14.25

"To the Crena and beyond", Susanne Hass

Hangar 1

Fagområdet Kolorektal med Ole Thorlacius-Ussing som sessionsleder

15.00

Er operation altid den rigtige strategi ved c. recti?

15.30

Danske erfaringer med intenderet kurativ kemoradioterapi
Laurids Østergaard Poulsen
Jesper Dan Nielsen

16.00

Diskussion

Hangar 2

Fagområdet Akut, The Complex abdomen med Mette Willaume & Nadia Henriksen som sessionsledere

15.00

Closing after emergency laparotomy. How to prevent dehiscence, abdominal compartment syndrome, and incisional hernia. Closure techniques, open abdomen, Botox, Fasciotens. Experiences from Germany, Guido Woeste

15.20

Closure techniques after emergency laparotomy in complex patients with existing hernia, high BMI, low albumin, cirrhosis. Experiences from Denmark
Thomas Korgaard

15.40

Perioperative optimization before emergency laparotomy
Mirjana Cihoric

16.05

Panel discussion – 3 cases fra anæstesilægen, Mirjana Cihoric

Hangar 4

Fagområdet HPB Onkologisk behandling af HPB-cancere med Peter Nørgaard & HC Pommergaard som sessionsledere

15.00

For og imod neoadjuverende behandling til patienter med resektabel/borderline pancreascancer.

Inna Chen, Onkologisk afdeling, Herlev Hospital
Carsten Palnæs, Afdeling for Organkirurgi og Transplantation, Rigshospitalet

15.30

Diagnostic laparoscopy for stable penetrating abdominal traumatic injuries, exploratory study from a level one trauma center
Nathja Groth Harpsøe, Holbæk

15.50

Hvad siger de internationale guidelines?
David Reiss Axelsen, Århus Universitets Hospital.

16.10

Er CT scanning løsningen?
Samir Jawad, Radiolog Rigshospitalet

16.20 - 16.40

Afslutning

Hangar 5

Uddannelsesudvalget med Lasse Bugge som sessionsleder

15.00

Robotkirurgi i speciallæge-uddannelsen

Præsentation af kort survey om udbredningen af robotkirurgi i den kirurgiske speciallægeuddannelse i 2023,
Lasse Bugge

15.30

Robotkirurgi skal ind i den kirurgiske speciallægeuddannelse! Har vi lært noget fra indførelsen af laparoskopisk kirurgi?
Christian Ross

16.00

Debat

Tak for denne gang.
Vi ses næste år.
